I had an amendment on this bullet point that wasn't "saved" in the version I sent you, so here it is:

- If we proceed forward with the FIP process, EPA envisions a process where the Tribe would be an integral part of all of those Stakeholder meetings; would that be a role the Tribe would be interested in - being at that integral party, at the table with EPA when we meet with the State, with Industry, and other federal agencies?

Cindy – here's my comments on the talking points. I integrated the discussion within the FIP discussion point context, where it seems to make relevant sense.

Please let me know if you have any questions. Thanks!- Kim V.
